Bus Accident in Valleyview

Valleyview Bus 222 was rear-ended Friday, February 2, while transporting students home from school. All students were either delivered home safely by an alternate bus or were assessed at Valleyview Hospital. Emergency Support teams were on hand quickly.

An accident, minor or otherwise, is a jarring experience for everyone involved.

We want to thank the emergency support teams, our principals, our transportation department and our bus drivers for the professional and caring manner in which they assisted students and families.
